Professional Experience

Mar 2023 - Present

Information Security Engineer

Trusting Social, Ho Chi Minh City

- Led the design and implementation of enterprise security controls across endpoint protection, DLP, vulnerability management, WAF, and cloud security.
- Conducted penetration testing and vulnerability assessments for OS, web applications, and APIs, combining automated scanning with manual validation.
- Architected and managed WAF systems with automated protection against DoS/DDoS and common attack patterns.
- Owned and secured GCP infrastructure including GKE, Cloud Run, VMS, firewall policies, and storage systems.
- Administered enterprise DLP solutions across macOS and Windows environments.
- Collaborated with cybersecurity, penetration testing, and GRC teams to improve monitoring, automation, and compliance.
- Built AI-powered automation solutions that eliminated repetitive manual tasks, significantly improving operational efficiency and enabling scalable security operations.
- Developed LLM-based threat intelligence solutions for automated threat modeling and attack tree generation.
- Evaluated and deployed new security technologies aligned with best practices.

Professional Summary

Security Engineer with end-to-end experience across infrastructure operations, SOC monitoring, and enterprise security engineering, specializing in cloud security and AI-driven automation. Proven ability to design scalable security systems, reduce manual workload through automation, and enhance operational efficiency. Strong collaboration with cybersecurity, penetration testing, and GRC teams to improve resilience and audit readiness.

Technical Skills

Cloud & Infrastructure:

GCP, GKE, Compute Engine, Cloud Run, Cloud Storage

Security:

WAF, DLP, SIEM, Vulnerability Management, OWASP, API Security

Systems & Networking:

Windows Server, Linux, VPN, WAN/LAN

Automation & AI:

Python, MCP, n8n, LLM-based workflows, Audit Automation

Achievements

- ASEAN Student Contest on Information Security (2019, 2020) - Consolation Prize
- Capture The Flag (CTF) - Rank 1 (3 consecutive years, HUTECH)
- IT Got Talent - HUTECH University (2021)

Feb 2022 - Mar 2023

Security Operations Center (SOC) Engineer

MoMo (M_Service), Ho Chi Minh City

- Monitored and responded to security alerts from SIEM systems.
- Investigated incidents and produced detailed security reports.
- Supported deployment of security tools (McAfee, ManageEngine).
- Maintained monitoring systems: Splunk, Nagios, NetFlow, Checkmk.

Mar 2021 - Feb 2022

System Administrator

Vietnam Information Technology Solution

- Managed servers, Active Directory, virtualization, and backup systems.
- Designed and maintained network infrastructure (VPN, WAN/LAN, firewalls).
- Deployed monitoring systems (Grafana, Prometheus, PRTG).
- Led infrastructure setup for new offices.

Education

Bachelor of Information Security
Ho Chi Minh University of Technology
GPA: 3.4/4.0 (2018 - 2022)

Mathematics (Gifted Program)
Ben Tre High School for Gifted Students (2015 - 2018)

Certifications

CCNA (2020)
CEH (2021)
LPIC 1 & 2 (2022)
AZ-104 (2022)
Kubernetes (2023)
OWASP API Security Top 10 (2024)
ICIP (2024)
Professional Cloud Security Engineer (2026)

Projects

- Built MCP-based automation workflows for daily security operations.
- Developed GCP VM inventory service on Cloud Run.
- Created LLM-based threat intelligence system for security analysis.

Activities

- D4RKC0DE - Top 6 India, Top 80 Worldwide
- Spoilers (Captain) - Top 27 India
- BWarriors (Captain) - Top 1 HUTECH
